

Every hotel, motel, or resort needs television service. You don't have to pay the high prices local cable companies want to charge you though.

Our specially trained technicians are able to convert your current service provider over to Assisted TV Solutions high quality service with no delay or disruptions for your guests. Allowing you to begin to reap the rewards of a lower monthly bill as soon as possible.

Assisted TV solutions is able to provide a basic standard definition lineup, or if you are ready to convert to high definition we can convert your system to digital as well. Either way you'll save money every month from leaving your local cable company.
